Reading Comprehension

The first few days after getting home from college were ok but then I began to feel rather bored and lonely. My parents were busy working and most of my friends were either away on holiday or had holiday jobs. I had tried to get a job myself but without success. I was beginning to wish I had not come home when I saw an advertisement for holiday courses in the local newspaper. For a small fee you could try lots of different activities organized by the council. Each activity lasted half a day. I had not expected the courses to be very interesting but they were excellent. I also met new people as many of the tourists staying in the town joined in. You could do things like painting, acting, playwriting or a computing. I met some students from Bulgaria who invited me visit Bulgaria next year. You can't imagine how excited I am; in fact it was one of the best summer holidays I have ever had!
